

Fee Agreement / Payment Policy

By signing the Elevation Sports Medicine Clinic New Patient Intake Form, you understand and are agreeing to our payment policy that includes payment at the time of service. This Time of Service Payment allows us to offer a Time of Service discount / Cash price of (see below the fee agreement prices).

Elevation Sports Medicine works with most insurance companies. However, you (the patient) are subject to the contract with your own insurance company, which include but not limited to co-pays, deductibles, in and out of network coverage.

If you wish us to bill your insurance company, the fee per visit then is \$125, NO EXCEPTIONS. This allows us to cover the cost of clearing houses, and 3rd party billing fees, any denials that take place from insurance companies that cause resubmissions (this is an additional fee of \$50 per denial if this happens). Keep in mind, denials from insurance companies are a common tactic used by the insurance company to create delays to hopefully cause the billing clinic to "give up" as the insurance company know it takes time and is expensive to bill, and resubmit. Other fees include but not limited to USPS postage, supplies, labor fees and other fees associated with billing.

In some circumstances, insurance companies send the payment that was owed to the clinic, to the patient; these insurance checks are to be then signed over to Elevation Sports Medicine.

- | | | |
|--|-----|-----------------------------|
| 1. Exam only | | \$80 |
| 2. Exam + treatment | add | \$40 (Exam + line 3 = \$90) |
| 3. Adjustment, 0-3 areas for dry needling and 1 therapy at | | \$50 |
| 4. Decompression only | | \$50 |

- o heat
- o Tranfrictional massage
- o Adhesion therapy

Supplements and medical equipment have additional fees.

Blood chemistry services are not included in our Chiropractic / PT fee agreement as stated above. These services and fees are separate and are discussed before the blood chemistry is ordered. Blood Chemistry fees are anywhere from \$30 to thousands of dollars, depending on what tests are ordered, since there are thousands of different blood chemistry labs to choose from, it is not listed on this fee agreement. A separate patient intake form and fee agreement is filled out, signed and agreed to, payment is required before blood chemistry services are rendered.

Risk of non-payment:

It is unclear why a person would not pay for a service, especially after that person signed an agreement of payment. Unfortunately, and sad to say, this type of theft does happen. Below is Colorado law with respect to theft of service, please read:

Please note, Colorado Statute / Colorado law considers non payment of service theft, known as Theft of Service. This is a type of crime that may be committed when a person uses a service without providing proper compensation for the service. Colorado considers it a class 3 misdemeanor if the value of property or service is \$50 - \$300. The Maximum penalty for this is \$750 fine and / or up to 6 months in jail.

Class 2, and 1 misdemeanor and then felonies carry a heavier penalty.

Colorado Revised Statutes Title 18
Criminal code 18-4-401 Theft

By signing the New Patient Intake Form, you are agreeing to this fee agreement.

Thank you
